SECURITY SYSTEMS

making our **community**
a better place to live

Home security brings peace of mind

The natural beauty and quiet seclusion of Elk River's expansive residential neighborhoods are among the area's biggest charms. But secluded locations are an open invitation for intruders. Elk River Municipal Utilities can help you protect your privacy and belongings with a home security system specifically tailored to your family.

Home Protection From your local Utility Company

Elk River Municipal Utilities already provides you efficient, reliable utility service. That's why it makes sense to rely on us for efficient security protection too. Whether you're building a new home or adding security to an existing one, we'll fit it with the latest security equipment and monitor your premises around the clock. This service is available whether you are an Elk River Municipal Utility customer or not.

- **Fire protection**—When your system sensors detect fire, the system quickly reports it to the dispatchers. While fire fighters are responding, an audible alarm warns your family of the danger.
- **Intrusion protection**—We install door sensors, glass breakage sensors and motion sensors to detect any unwanted entry into your home.
- **Easy system control**—Each system includes an easy-to-use keypad for arming, disarming and programming the system.
- **24-hour monitoring**—For a low monthly service fee your home is monitored from the central station, where trained staff are ready to send the proper authorities to respond to any emergency.

Protection that grows with your family

You can easily expand our basic system to accommodate your family's changing needs. Designed for flexibility, it's capable of performing a variety of added home/life safety functions, including:

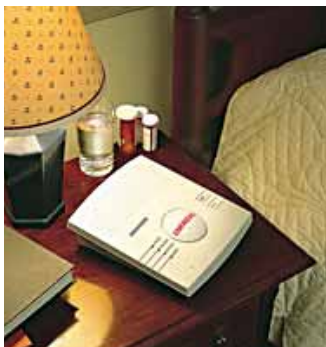

- **Environmental Control-Sensors**

can be installed to monitor frozen pipes or a malfunctioning heating system. Timers can also be added to turn on and off lights to make it appear as though people are home.

- **Video Cameras** can easily be installed with recording for home or commercial application.

- **Life Saver Personal Emergency System**

Protect yourself or your loved ones from becoming stranded from falling or not being able to use the phone to call for help.

Lease Only/Monthly Monitoring
(3 month lease) **\$23.75** / month plus tax

Talk with one of our home security experts

Elk River Municipal Utilities will send a qualified security expert to your home to assist you in designing a security system that's exactly right for you. Call today to schedule a free home evaluation. One of our experts will visit you to answer your specific questions, recommend the system components you'll need, and give you a detailed price quote. We're proud to be able to offer affordable home security protection to our valued customers. We invite you to let us bring greater peace of mind to your family.
